

MACHINERY SAFETY WEBINAR SERIES

Module 3: How machine risk is reduced using the AS/NZS4024 standards.

1

Welcome and background

- Presenter: Brent Sutton

The machinery safety forum is funded by Daiken Southland Limited as part of an enforceable undertaking with WorkSafe NZ and does not represent the views or operations of Daiken Southland Limited. Any information or data that is recorded may only be used for the purposes of the enforceable undertaking.

This webinar does not represent a statement of the law as it applies to particular problems or to individuals or as a substitute for legal advice. You should seek independent legal advice if you need assistance on the application of the law to your situation.

2

Module Overview

Building your knowledge and understanding in managing the risk of machinery across 9 key areas including;

1. Trends and duty holder responsibilities
2. AS/NZS4024 standards in managing machinery risk
3. How machine risk is reduced
4. Understanding physical risks of machinery
5. Understanding common health risks of machinery
6. Common types of machinery risk controls
7. Undertaking a meaningful risk assessment with workers
8. Common safe systems of work and lock out-tag out

3

Module 3

In this module we will explore:

1. The machinery risk assessment standard
2. Understanding Acute versus Chronic risks with machinery
3. The risk reduction process to apply to machinery

4
